Power Instrument Table

Versatile, Integrated Diagnostic Platform

800.787.5426

haag-streit-usa.com

Compatible with All Major Instruments

Give your diagnostic suite the home it deserves with Haag-Streit's Model 1490 power instrument table. An expanded tabletop accommodates any major slit lamp, retinal camera and monitor.

Button Press Powers On/Off Devices

Start examinations with the flip of one conveniently located switch. And end them just as easily.

Mobile and Stationary

Smooth-moving casters give you the freedom to move the Model 1490 around your busy practice. Locking mechanisms secure it in place.

Adjust Height with Smooth Motorized Lift

Up and down switches directly under the tabletop control positioning.

Wheelchair Accessible

A redesigned base fits wheelchairs of all sizes.

Certified Safety

The Model 1490 has passed extensive, rigorous testing to ensure its quality and safety for you and your patients.

- Certified to the International Electrical Standard (IEC 60601-1) for general safety
- UL certified (IEC 60601-1-2) for EMC to comply with International standards

Tech Specs

- Tabletop height: 26" lowered, 36" raised
- Shipping weight: 188 pounds
- Electrical: 120V (220V optional), 50Hz, 6.3 amps
