

# Handles and Chargers

Lithium-ion chargers charge in two hours with a usable charge in five minutes. Intelligent chargers that show the state of your battery.

## Slimline Lithium Handle

The lightweight, perfectly balanced, smooth handle is made from high-quality chrome eliminating cross infection. Using a Keeler Duo or Mini Charger battery will charge within an hour.

## Lithium Handle Stand Adaptor

The small and sleek adaptor allows your Keeler Lithium Handle to charge in any standard refraction stand.

## Duo Charger

Small footprint, compact charger takes two handles and fits neatly into any testing environment allowing easy access to your handheld instruments.

## Mini Charger

Perfect choice for domiciliary visits or practitioners on the move. Similar to your cell phone, the diagnostic instrument can still be used whilst the battery is charging.
