

Vantage Plus LED Digital Ophthalmoscope

Digital Imaging Anywhere You Want It

As the world leader in binocular indirect technology, we lead the way with the first digital binocular indirect system, by moving away from analog video with true digital imaging. Utilize Vantage Plus LED Digital Wireless in your office, operating room, teaching facility, or anywhere you want to capture digital images.

The intuitive and powerful Keeler software allows you to use your laptop or any USB interface to optimize the examination, by providing still or dynamic images that aid in the documentation and diagnosis of your patient.

Increase your practice profile by educating your patients and their families with digital dynamic imaging in your office.
